**Riverfront Groundwater Contamination Site
PRP Information Summary**

Current Entity: Metalcraft Enterprises, Inc.

Other Related Entities:

Brief description of waste streams involved and source of information:

-
- Metalcraft used PCE and dumped it on the ground (Larry Detrick, interview by MDNR, 1/24/90)
 - Metalcraft never used PCE (Chester Nichols, interview by MDNR, 6/11/92)

Date Information Request Response received: April 14, 2000

Highlights of Information Request Response:

- Conrad Laune and Chester Nichols, employees of ARP, purchased ARP's Metal Division assets in March 1989
- Seth Shucum served as an officer of Metalcraft and of ARP, Kellwood, and Citizens' Bank

Employees

- Following are former employees of Metalcraft: Melvin Duvall, Marvin Horstmann, Ken Kuschel, Conrad Laune, Richard Monzyk, Chester Nichols
- Following are current employees of Metalcraft: John Pruessner
- Of these employees, Ken Kuschel, Melvin Duvall and John Pruessner have handled brake and electric motor cleaner in an aerosol spray can (this is material containing PCE or TCE)

Operations of Company

- Metalcraft's operations at Industrial Drive began 3/17/89. A brake and electric motor cleaner was used, packaged in an aerosol can; titled "Valvoline Brake & Electric Motor Cleaner"; used between 1990-1993 at a rate of approximately 3-4 16 ounce cans per year (thus, total usage is about 256 ounces over 4 years, or 2 gallons)
- Metalcraft purchased Cleaner from Fritz's NAPA Auto Center in New Haven
- Metalcraft also has outside service for repair and general maintenance of fork trucks (Weise Planning & Engineering, Union, MO); Weise has used Brake & Drum cleaner which contains PCE
- Metalcraft claims it generated no PCE or TCE wastes; spent, empty cans of Valvoline Brake & Electric Motor Cleaner were disposed of in trash; trash picked up weekly by Tucker Hauling and Waste Management
